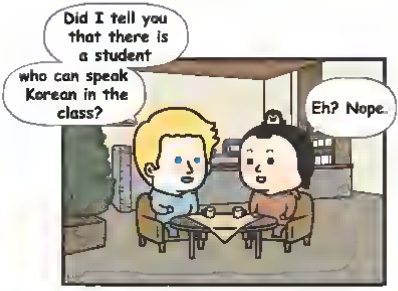
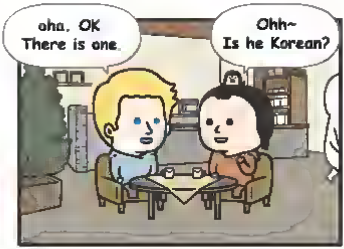
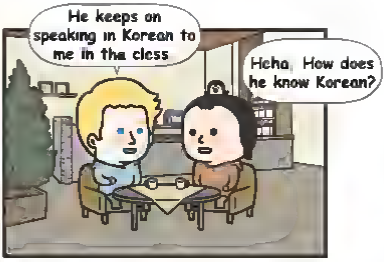
Korean in the Class

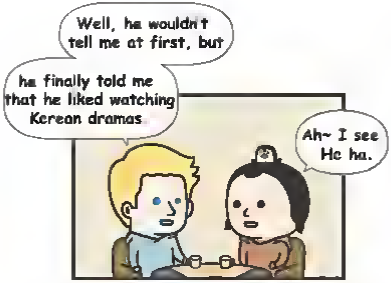


One day, Mev told me about one of his students

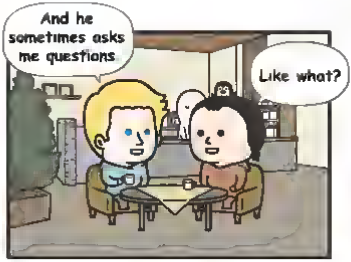


The boy was studying Korean
as a hobby.

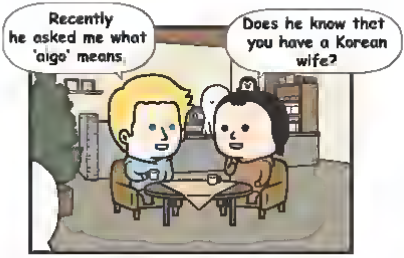




He learned Korean from watching k-dramas.

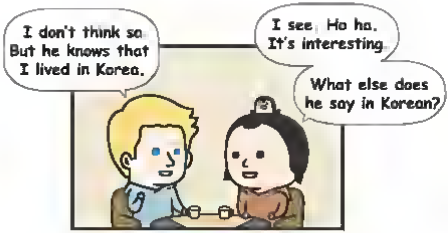


And he sometimes asks me questions.
Like what?



Recently he asked me what 'aigo' means.
Does he know that you have a Korean wife?

*Aigo. Oops



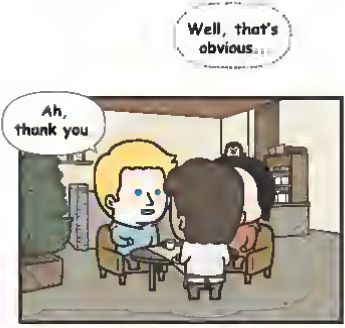
He says 'ne' or 'kamsahamnida'...

*Yes
*Thank you
*Good-bye

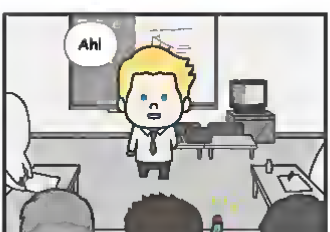
Also 'annyunghikeseyo' after the class.

Imagining the situation made me laugh.

And Mev asked me this question.

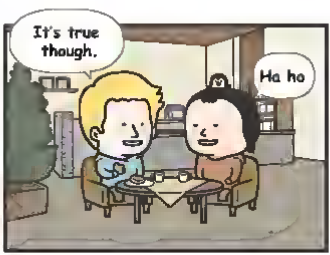


OK. 5minutes.
If you need any help,
raise your hand



Ah!

*아저씨(Ajeossi): old(mature) man



The answer was an old man
